Our Services

WEB DESIGN

I provide unique and attractive website design services at a more affordable cost. I refrain from using themes and build a custom design for my clients based on their requirements. All my designs are unique and made sure it reflects the business and reaches the intended audience. I also provide FREE* Hosting and Domain for a period of 1 year for my web design clients.

WEB DEVELOPMENT

Over the past 7+ years I have been developing mobile friendly websites for a wide range of clients across domains. I develop the website from scratch, be it a static website or a WordPress CMS website, considering the Google search engine which would help to boost your rankings. Websites developed are browser compatible, clean coded, fast loading and are open to future enhancement.

E-COMMERCE SOLUTIONS

Effective, Secure and Reliable ecommerce solutions for setting up your online business. I help my clients in setting up the online store in Shopify, Prestashop, WordPress, WooCommerce. I do upload products and provide free training to my clients on how to manage the website and free support up to 3 months and ongoing maintenance at a very minimal cost.

BRANDING

An amazing identity of your business starts with logo. All my logo designs are hand sketched first to meet the customer requirements, then converted to digital. All the logos designed has a hidded meaning that would depict the business. Based on the logo, I provide the complete corporate identity set for my clients. A one stop solution for your business from branding to website design.

PRINT DESIGN

Good eye-catching print design never fails to grab attention of the customers amidst this digital era. My print design services ranges from roll up Banners, Flyers, Brochures, File Design, Business Card Design, Banner design and more. Each print material is individually priced based on the requirements of the business, but I OFFER the most competitive rate in market.

APPLICATION DEVELOPMENT

Amidst developing websites and providing graphic design services, I also develop bespoke applications based on the clients' requirements. Being a certified Mircosoft .NET professional, have developed custom applications for licensing control, Educational Applications, Tuition Monitoring System, Online Fund Management for finance companies with the best UI/UX design.

SEO / SMM

Websites which do not generate leads is not worth having it online. I provide SEO and SMM services at a more affordable rate with only White Hat methodologies to achieve ranking. A slow and steady increase in the rankings will make your website reach the first page without Google being suspicious. Designing of Social media posts are done at more affordable rate based on the concepts provided.

POWERPOINT PRESENTATION DESIGN

Business presentations often tend to receive a negative blow and are frequenlty boring with very long contents and speeches and dull visuals. PowerPoint presentations need not to plain looking with default fonts and content. I create stunning PPT Slide designs based on your write ups which would grab audience attention.
